Austroads
Learning to Drive

Road map

To help learners demonstrate their understanding and knowledge of the road rules, road signs, traffic conditions and an awareness of other road users.

Instructions

The **learner** will choose a vehicle and be asked to navigate a route with a starting point chosen by the **facilitator** and upon coming to a **blank sign*** the **learner** will choose from the **signs cards**, which card(s) belong to the blank sign on their chosen route. The **learner** will need to demonstrate this on both roadmaps.

The **facilitator** would need to choose appropriate locations to place other vehicles, for example emergency vehicles, trucks and passenger transport vehicles.

Winding road sign
Caution, the road ahead has lots of bends.

The **learner** should be able to explain the road rule, traffic condition and warning signs for the cards they have chosen on their route.

The **facilitator** may ask the **learner**, to demonstrate knowledge by asking them to identify on the roadmaps where there is an absence of a sign for example road rules, warning or other signs.

Use visual hints to assist the learner to identify the correct card, for example line markings, other road users and obstacles.

* Blank Signs

School zone speed limits vary:
40km throughout Australia *except for South Australia* where the school zone speed limit is 25km.

Speed sign 40
Regulatory speed sign.
